

Yolo County: Multi-Hazard Coordination Task Force Recommendations (Log number Nov11 - 5)

Staff Recommendation: No action at this time.

Any action should wait until the recommendations are known. The California Emergency Management Agency will be presenting the Sacramento-San Joaquin Delta Multi-Hazard Coordination Task Force emergency preparedness and response strategies to the November 18, 2010 DSC Council meeting.

Background

The applicant is requesting the Delta Stewardship Council (Council) to support and assist with efforts to secure appropriation of funding for implementation of the future recommendations of the Delta Multi-Hazard Coordination Task Force (Task Force). SB 27 established the Task Force to develop, among other charges, Delta emergency preparedness recommendations. SB 1443 enacted a time extension for the Task Force to submit a complete report on or before January 1, 2013. It is unknown when the Task Force will make its recommendations to the Governor, the Legislature and California Emergency Management Agency (Cal EMA) Secretary. The funding sources are unclear once the recommendations are made and which agency is or would be the designated lead agency.

The project is not considered to be an Early Action for the following reasons:

- The apparent urgency is to facilitate funding for future recommendations that are unknown and the associated costs are unknown at this time.
- It is unknown how much money would be needed.
- The Delta Multi-Hazard Coordination Task Force has until January 1, 2013 to submit a complete report, which includes emergency preparedness recommendations. This date would be following completion of the Delta Plan by January 1, 2012.
